

Fix the Body...Fix the Mind

KoolSpeed Equine Performance Feeds are specifically designed to decrease the incidence and/or lessen the severity of Gastric Lesions and their side effects without losing any performance in your horse.

Through the use of a unique blend of ingredients, KoolSpeed Equine Performance Feeds more closely mimics the digestive pattern of feed stuffs that mother-nature intended. Horses are, by nature, grazing animals. In our quest for performance, we have created some digestive problems. These digestive problems can lead to loss of appetite, poor hair coat, poor body condition, decrease in performance, jittery and/or erratic behavior, and loss of energy.

Another feature of KoolSpeed Equine Performance Feeds is that it is designed to slow down the consumption rate at feeding time. This promotes a more stable PH level and healthy digestive system. Through the use of highly digestible forage and fiber sources, coupled with a fat source and a small amount of nonstructural carbohydrates, KoolSpeed Equine Performance Feeds delivers the perfect balance of nutrients needed for a healthy horse.

This all natural, low carbohydrate blend promotes a calmer more trainable horse by keeping your horse "Kool" without losing "Speed".

KoolSpeed Equine Performance Feeds has 3 levels:

Kool Foal is formulated to supply the right balance of nutrients to support healthy growth and development of a foal's frame and joints. Through the use of a patented and proprietary blend of ingredients, Kool Foal also promotes a less stressful weaning experience.

KoolSpeed is designed with a 6% Fat for the horse with a moderate work load or the easy keeper.

KoolSpeed Plus is specifically formulated with a higher fat content and should be fed when more body condition is a priority or when horses are under a heavy work load.

KoolSpeed
... The name says it all

Kool Foal

A Complete Feed for Young Growing Horses.

GUARANTEED ANALYSIS

Crude Protein	(Min)	16.0 %
Lysine	(Min)	1.0 %
Methionine	(Min)	0.46 %
Crude Fat	(Min)	10.0 %
Crude Fiber	(Max)	20.0 %
Acid Detergent Fiber	(Max)	25.0 %
Neutral Detergent Fiber	(Max)	37.0 %
Calcium	(Min) 0.4 (Max)	0.9 %
Phosphorus	(Min)	0.3 %
Magnesium	(Min)	0.2 %
Zinc	(Min)	180.0 ppm
Copper	(Min)	60.0 ppm
Selenium	(Min)	0.4 ppm
Chromium	(Min)	0.7 ppm
Vitamin A	(Min)	6,000.0 IU/lb
Vitamin E	(Min)	75.0 IU/lb
Digestible Energy	(Min)	1.3 Mcal/lb

FEEDING DIRECTIONS

Feed at a rate of 0.5% to 1.5% of the animal's body weight in divided feedings. Feed until your horse reaches physiological maturity, 18-20 months of age.

Feed good quality grass hay and/or pasture free choice as well. Animals should have access to an abundant supply of clean fresh water. Provide an additional source of salt, free choice. For further feeding directions consult your supplier or nutritionist.

Kool Foal is designed to promote healthy development of bones and joints.

FEATURES & BENEFITS

Forage/Fiber Base: Mimics the digestive pattern of a forage-based animal.

Highly Fortified: Elevated Levels of Micro & Macro minerals for bone & joint development.

Calming Factor: Specifically blended combination of vitamins and Trace minerals to help alleviate stress at weaning.

Gastric Buffers: Aids in reducing Gastric acidosis.

Kool Speed

A Complete Feed for Performance Horses.

GUARANTEED ANALYSIS

Crude Protein	(Min)	14.0 %
Lysine	(Min)	0.75 %
Methionine	(Min)	0.32 %
Crude Fat	(Min)	6.0 %
