Vitamin E	(Min)	85.0 IU/lb

LIST OF INGREDIENTS

Plant Protein Products, Salt, Processed Grain By-Products, Calcium Carbonate, Vegetable Oil, Lysine, DL-Methionine, Iron Sulfate, Zinc Sulfate, Roughage Products, Vitamin E Supplement, Manganese Sulfate, Copper Sulfate, Mineral Oil, Thiamin Mononitrate, Biotin Supplement, Sodium Selenite, Choline Chloride, Vitamin A Supplement, Pantothenate, Pyridoxine HCl, Folic Acid, Niacin Supplement, Cyanocobalamin, Riboflavin Supplement, Vitamin D3 Supplement, Ethylenediamine Dihydriodide, Zinc Polysaccharide Complex, Manganese Polysaccharide Complex, Copper Polysaccharide Complex, Cobalt Carbonate.

FEEDING DIRECTIONS

Allow mares free choice access to this feed. Consumption should be between 2 to 4 pounds per head per day depending on forage quality and animal's stage of production. Feed good quality grass hay and/or pasture free choice. Provide an abundant supply of clean, fresh water. For further feeding directions consult your supplier or nutritionist.

CAUTION: This feed contains added copper, do not feed to sheep.
CAUTION: Do not use in association with another feed containing supplemental selenium.

Manufactured by:

Mannsville Ag Center
450 W. Broadway
Mannsville, OK 73447

"The Common Sense Supplement"

Pro Mare

“The Common Sense Supplement”

Pro Mare is a free choice, self-limiting supplement, which is designed to deliver the right amount of nutrients at the right time. Forage quality and stage of lactation are the two biggest factors determining the nutrient requirements of a brood mare. There is no better way to meet these requirements than to have a balanced supplement available at all times.

In addition to the nutritional benefits of a supplement, Pro Mare also offers the following management & economic advantages:

1. Less labor Intensive: A 3-5 days' supply can be put out at one time. Pro Mare should be fed in a covered mineral feeder or in a wooden/plastic bottom trough that is under shelter.

2. Less stress at feeding time: Since Mares have access to Pro Mare 24-7, there is no need for individual feed pans or separating Mares at feeding time. Pro Mare Supplement promotes a stress free feeding environment.

3. Saves Money: Not only will you save money in labor cost, but also in the daily feed cost per head when compared to comparable feeding programs.

Features and Benefits

High Protein 22% - concentrated to meet a requirement at low feeding rate

High Fat 5% - provides high energy at low feeding rate

Low Starch 8% - safe for starch sensitive Mares

Complete Minerals & Vitamins - fortified to meet the requirements of a lactating Mare

Chelated Trace Minerals - provides sources of chelated Zinc, Copper, and Manganese

Safe - by its very nature: a salt limit supplement prohibits overeating, while allowing Mares to “Consume to a requirement.”
